May 12, 2025

The Algae Biomass Organization (ABO), the trade association for the U.S. algae industry, today announced the newest Chair for the organization's Board of Directors for the 2025-2027 term.

Kevin McGraw
Director of Sales USA
Algaewheel

DES MOINES, Iowa- –May 12, 2025 – The Algae Biomass Organization (ABO), the trade association for the U.S. algae industry, today announced that Kevin McGraw is the newest Chair for the organization's Board of Directors for the 2025-2027 term. We would like to thank the outgoing Chair, Mike LaMont, for his invaluable leadership and amazing work during his term. Mike will continue to serve on the Board of Directors.

Kevin blends his military background and industry expertise with over 20 years of leadership and entrepreneurial experience to lead the sales team for Algaewheel. His skills in solving complex problems and finding innovative solutions at the intersection of technological and biological systems performance are at the heart of the Algaewheel sales efforts.

Prior to joining the Algaewheel team, Kevin built a successful residential land development business in California which he later expanded into Montana. Earlier in his career, he studied navigation, graduating from the California Maritime

Academy and spent eight years sailing as a Navigational Officer for Master Mates and Pilots. Kevin served four years as a United States Marine and completed his obligation with an honorable discharge.

With this well-respected leader at the head of the ABO board, the organization is set to continue its efforts to expand opportunities in the algae industry.

About the Algae Biomass Organization

The Algae Biomass Organization (ABO) is a 501(c)(6) non-profit whose mission is to promote the development of viable commercial markets for renewable and sustainable commodities derived from algae. Its membership is comprised of people, companies and organizations across the value chain. More information about ABO, including its leadership, membership, costs, benefits and members and their affiliations, is available at the website: www.algaebiomass.org.
