

World renowned leader in algae supplement production, Cyanotech is looking for a **Quality Manager**.

Now is an exciting time to join the company with the recent launch of our line of gummy products and the opportunity to work on other new developments. Those passionate about algae knowledge will be able to take advantage of working alongside industry experts such as Gerry Cysewski, company founder, and Jennifer Johansen, who is a sitting member of the ABO's board of directors.

This is a full-time (40/hr wk), exempt position that is responsible for managing Quality Control and Quality Assurance activities of the company in a fast-paced food and dietary supplement manufacturing environment. This includes management of the Quality Management System, Good Manufacturing Practices (GMPs), HACCP/Food Safety Programs, Food Safety Modernization Act (FSMA) requirements, Department of Health (DOH) regulations, and product certification compliance.

The salary range for this role is \$70k-\$100k and the company is looking to have a candidate start by August 1st. The position comes with a good benefits package including health and dental care, retirement, and paid time off and opportunity for growth.

Cyanotech Corporation is a world leader in microalgae technology, producing BioAstin® and Hawaiian Spirulina Pacifica®. As a world leader in the production of high value natural products derived from microalgae, we are guided by the principle of providing high quality microalgae products for health and human nutrition in a sustainable, reliable and environmentally sensitive operation.
