Engineering the Future of Fuel

Sapphire Energy is at the forefront of an entirely new industrial category—Green Crude Production—with the potential to radically alter the domestic energy and petrochemical landscape. From ponds to pipelines—Green Crude results in a complete drop-in replacement fuel that's clean, environmental and domestic.

**HYATT REGENCY WASHINGTON ON CAPITOL HILL
400 NEW JERSEY AVE NW, WASHINGTON, DC 20001**

DAY ONE - THURSDAY, APRIL 23, 2009

9:30 a.m.	10:00 a.m.	Technical Standards Committee Meeting	Jim Sears	Committee Chairman	Bryce Room - 2nd Floor
10:00 a.m.	10:30 a.m.	Membership Development Committee Meeting	Mark Allen	Committee Chairman	Bryce Room - 2nd Floor
10:30 a.m.	12:00 p.m.	Government / Public Relations Committee Meeting	Dale Smith	Committee Chairman	Bryce Room - 2nd Floor
11:00 a.m.	12:00 p.m.	Registration	Event Staff	Algal Biomass Organization	Lobby
12:00 p.m.	1:30 p.m.	Lunch Speaker: Former Congressman Jim Walsh		Sponsors: Bionavitas, General Atomics, Green Power Conferences, and Targeted Growth	Lobby Level
1:30 p.m.	5:00 p.m.	ABO Member Meetings with Elected Officials		Sponsored By: Sapphire Energy	Capitol Hill
4:00 p.m.	5:00 p.m.	Board of Directors Meeting	Billy Glover	Chairman of the Board of Directors	Bryce Room - 2nd Floor
5:00 p.m.	7:00 p.m.	Reception	Sponsors: LiveFuels, Inc. and Sapphire Energy		Capitol Room - Lobby Level
		Speakers: Pam Serino, Defense Energy Support Center; Joyce Yang, DOE/EERE; and Mike McAdams, Advanced Biofuels Association			

www.bionavitas.com

Bionavitas is an innovative bioscience company that has developed the proprietary **Light Immersion Technology™** to effectively address the problem of self-shading in algae growth. The company provides technology that enables the commercially viable, cost effective production of algae for the bioremediation, health and biofuels industries.

DAY TWO - FRIDAY, APRIL 24, 2009

7:00 a.m.	8:00 a.m.	Breakfast Buffet Registration	Sponsors: Aurora Biofuels, Boeing, and Fredrikson & Byron, P.A.		Capitol Room
8:00 a.m.	8:05 a.m.	Welcome & Introductions	Billy Glover	Chairman of the Board of Directors	
8:05 a.m.	8:10 a.m.	Secretary/Treasurer's Report	Thomas Byrne	Secretary of the Board of Directors	
8:10 a.m.	8:20 a.m.	Events Committee Report	Thomas Byrne	Committee Chairman	
8:20 a.m.	8:50 a.m.	Membership Development Committee Report	Mark Allen	Committee Chairman	
8:50 a.m.	9:05 a.m.	Peer Reveiw Committee Report	John Benemann	Committee Co-Chairman	
9:05 a.m.	9:35 a.m.	Government / Public Relations Committee Report	Dale Smith	Committee Chairman	
9:35 a.m.	9:50 a.m.	Mid-Morning Break			
9:50 a.m.	10:20 a.m.	Guest Speaker	Stephanie Shaw & Brice Freeman	Electric Power Research Institute (EPRI)	
10:20 a.m.	10:30 a.m.	Bylaw & Governance Committee Report	Mark Allen	Committee Chairman	
10:30 a.m.	11:00 a.m.	Technical Standards Committee Report	Jim Sears	Committee Chairman	
11:00 a.m.	11:05 a.m.	Introduction of New Board Members	Tyler Krutzfeldt	Director Recruitment Chairman	
11:05 a.m.	11:35 a.m.	New Board Member Remarks	Dr. Ira Levine, Dr. Margaret McCormick, Dr. Phil Pienkos, Mr. John Pierce, and Ms. Elizabeth Willett		
11:35 a.m.	11:55 a.m.	Questions / Comments	Billy Glover	Chairman of the Board of Directors	
11:55 a.m.	12:00 p.m.	Closing Remarks	Billy Glover	Chairman of the Board of Directors	
12:00 p.m.		Meeting Adjourned			

ALGAE BIOFUELS

A Path To Energy Independence

- Research is underway to determine the best method for growing algae for fuel
- 20 million acres of algae could supply all US transportation fuel needs

GOAL: Produce 200 billion gallons / year at under \$2 / gallon by 2020

Contact: Hal Streckert | 858-455-2911 | h.streckert@ga.com

SAVE THE DATE!

ABO ANNOUNCES 3RD ANNUAL ALGAE BIOMASS SUMMIT

The Algal Biomass Organization announces the dates and location of its 3rd Annual Algae Biomass Summit, hosted by Wilson Sonsini Goodrich & Rosati and Byrne & Company, Ltd. It also announced a Call for Presentations for the summit, which will take place October 7-9, 2009 at the Marriot San Diego Hotel & Marina in San Diego, California.

"Momentum continues to grow," said John Pierce, Member, Renewable Energy and CleanTech Practice at Wilson Sonsini Goodrich & Rosati. "From our first summit in 2007 which drew 350, to this year where we expect close to 1,000, global leaders, scientists, innovators, funders and policy makers look to the Algae Biomass Summit as the premiere algae-focused industry event."

Past speakers and attendees have included national and international technologists, producers, scientists, investors, and policy-makers. During the course of the event, leaders and attendees will discuss issues of critical importance to the emerging algae industry, including the commercial viability of algae production, current government and private initiatives, evolving technologies, processing concepts, life cycle analysis, and venture and project finance.

"It's never been more important for the industry to come together to find economically and environmentally sustainable solutions to climate change," said Tom Byrne, CEO of Byrne & Company, Ltd., co-host of the summit. "Interest and investment is at an all time high, but there's still a great amount of work to be done. We look forward to a highly productive event."

ANNOUNCING FOUR
NEW ADDITIONS TO
THE BIOFUELS SERIES

BiofuelsMARKETS SERIES

Biofuels
MARKETS & Jatropha
ASIA EXECUTIVE BRIEFING

29 June - 1 July 2009 • Jakarta, Indonesia

Jatropha
EXECUTIVE BRIEFING AMERICAS

9-10 July 2009 • Mexico City, Mexico

BiofuelsMARKETS
MEXICO & CENTRAL AMERICA
EXECUTIVE BRIEFING

8 July 2009 • Mexico City, Mexico

Biofuels & Jatropha
MARKETS EXECUTIVE BRIEFING
AFRICA

September 2009 • Nairobi, Kenya

BE A SPEAKER AT THE 2009 ALGAE BIOMASS SUMMIT

The ABO is seeking individuals from companies, public and private institutions, academic research laboratories working in this area who would contribute novel and up-to-date information on all topics of algal biofuels and biomass production, including liquid transportation fuels, biofuels for electrical generation, higher value products, harvesting and processing, algal biotechnology and genetic research; engineering cost studies and life-cycle analyses, venture finance and outlook for structuring both pilot and industrial-scale algal production and processing projects. To be considered, please complete and submit the Abstract Submittal Form (available on the 'Events' tab of the ABO website) along with a 300 word abstract and short biography by July 5, 2009. Abstracts may be submitted via email, mail or fax - contact information is also available on the ABO website.
